		\$900 minimum	
		Qty of Lavendar >	
		Qty of Echinacea >	
		Qty of Virginia Cedar >	

How this works (MUST READ):

Tell us how many jars of luxury tallow balm you would like to receive. We will take the suet fat from your animal and process into these products with your farm branding on the packaging. Your cost is around \$20 per jar. Suggested retail price is \$30 per jar.

1 lb. of suet fat produces 10 jars. At \$10 net per jar, one animals-worth of suet fat could NET you \$1,000 (if you sell 100 jars). We must do 200 jar production runs. Run will begin once we have 200 jars ordered.

Product may be mailed to you in certain instances.
It can be delivered on your next beef delivery, or held here for pickup.

(Sign here) I understand final quantities vary, and that production times take several weeks.
